

PRO HUB

Unlock the full power of Dals Connect Pro! Take your smart lighting to the next level with the Dals Connect Pro Hub — the heart and brain of your lighting ecosystem. While Bluetooth lets you enjoy the basics, the Pro Hub opens the door to the complete smart experience: control your lights from anywhere in the world, create seamless automation and enjoy immersive surround lighting.

Simple to set up, the Pro Hub connects to your router and brings your entire Dals Connect Pro collection to life. Add accessories, integrate your favorite voice assistant, and craft a lighting experience that truly responds to you — anytime, anywhere.
