

# MODA

A versatile recessed lighting solution available in three-, four-, and six-inch sizes, featuring customizable finishes, round or square trims, lenses, and reflectors, with options for standard, sloped ceiling, and trimless installations, all with multi-voltage compatibility. Perfect for commercial or residential spaces.

## EXPANDED FLEXIBILITY

Now offered in both round and square trim options, Moda delivers greater versatility for any design aesthetic.

## RC04-CC shown

### DRIVER

Converts mains voltage (120V/277V/347V) to the appropriate current for the LEDs, featuring multiple dimming capabilities, including Triac and 0-10V dimming, for added flexibility.

### LIGHT ENGINE

Includes an LED module, a heatsink for efficient cooling, a lens holder for light distribution, and a rotating dial at the top to select the color temperature.

### LENS

Sits below the light engine and shapes the light to create the desired beam angle. Available in 20°, 35°, and 60° angles.

### REFLECTOR

Sits inside the trim. Available in three options: standard, sloped ceiling, and gimbal. Comes in four finishes: Alzak, black, gold, and white.

### TRIM

The visible part framing the light opening. Flanged trim has a defined edge, while trimless blends seamlessly with the ceiling. New wall-wash trims provide directional, wall-focused illumination.
